**Online Assessment** 

## Direct insight into a team's qualities

The TeamsDNA® team assessment gives direct insight into the qualities of a team as a whole. TeamsDNA® offers usable information for a (team) manager with a clear answer to questions like: What does this team look like? How does this team work best together? Does this reflect the objectives we want to achieve as a team? Are we a future-oriented team?

#### Input for team sessions

In addition, TeamsDNA® is ideal for use as input for a team session. How do we stand as a team? What can we utilise and what can be improved? How can we grow together as a team in the future? By thinking as a team about the preferences and the strong and weak points of the team, you promote teamwork and team effectiveness, and the team acquires insight into where there is scope for improvement.

### Insight into the qualities of a team as a whole

### **TeamsDNA®**

### **Combined assessment results**

TeamsDNA<sup>®</sup> integrates various individual assessment results into a combined team result with explanation. You can see the following team qualities at a glance:

- Team potential 5 highest and lowest team competencies
- Team motivation 3 highest and lowest team drives
- Team preferred roles and motivations profile
- Team Learning Agility score with benchmarks
- Team Learning Agility score per dimension with potential and motivation
- Team capacities score (optional)

## PowerPoint, information and tips

All assessment data are automatically combined into an easy-to-read PowerPoint. With one click, you thus create a clear team photo. Immediately usable for a presentation or team session. An accompanying pdf offers a Quick Guide to start using TeamsDNA® at once. If you need more in-depth information or tips for a team session, extra information is given for each TeamsDNA® PowerPoint slide with further explanation and tips.

### Individual overview

Each team member can also download their own overview with his or her individual results: personal top-5 competencies | personal score on the top-5 team competencies | personal top-3 motivations| personal preferred role | personal Learning Agility results. Useful in a team session.
